As explained in staff's January 16, 2018 report many of these duties have been eliminated due to reductions in staffing and recreation programs in the City's General Fund and the property ownership transfer to the Friends of Oakdale Heritage (FOH) organization for oversight, maintenance and property ownership of the Museum and History Center.

The City desires to be as efficient and effective as possible with its resources while providing the best possible customer service to its residents and

businesses. With this in mind the City has evaluated the list of duties assigned to the Parks and Recreation Commission and is recommending that the duties of the Parks and Recreation Commission be assigned to the Planning Commission. The remaining duties of the Parks and Recreation Commission overlap duties of the Planning Commission, i.e. review of the City's Parks Master Plan and the City's General Plan.

The Planning Commission meets the first Wednesday of each month at 6:00 p.m. in the City Council Chambers. This will provide an opportunity each month for members of the community to bring items of concern related to parks and recreation to the attention of the Planning Commission for follow-up and action.

# III. FISCAL

There is no stipend associated with any of the City's boards, commissions or committees therefore, the fiscal implications are realized in staff time in preparing agendas, packets and recruiting for vacancies.

### CITY OF OAKDALE CITY COUNCIL STAFF REPORT

Meeting Date:	February 5, 2018
То:	Mayor Pat Paul and Members of the City Council
From:	Cody Bridgewater, Public Works Superintendent
Reviewed by:	Jeff Gravel, Public Services Director
Subject:	Consider adopting a resolution awarding a contract with Lawrence Backhoe Service, Inc. for the 2017-2018 Water Meter Upgrade Project in the amount of \$122,125.00; and authorizing funds in the amount of \$335,466.14 for purchasing the water meters and related materials; and authorizing an additional 10% Contingency in the amount of \$46,000.00, for a project cost of \$503,591.14 from the Water Capital Replacement Fund 624 CP1537

### I. BACKGROUND

The City of Oakdale, Public Services Department, operates and maintains a potable water distribution system that serves approximately 7,000 residences and businesses, with a total of 8,197 meters. The Public Services Department has a long-term Water Meter Upgrade and Citywide Automated Reading Network Infrastructure Installation Plan to support the City of Oakdale's once a month metered billing process. The plan also accounts for the replacement of antiquated meters to achieve timely and precise water usage readings for accurate monthly billing to owners, and more accurate reports to the State.

The City currently operates with two types of water meters, radio read and manual read. Radio read meters transmit data via radio frequency to a mobile receiver located in the City vehicle. Manually read meters are read by a City employee that physically walks to each location, opens the meter box, and manually enters the meter reading into a handheld receiver.

To date, the City Meter Routes are 79% drivable (radio read). With 2017-18 Water Meter Upgrade Project Phase 1A, the City will improve to a 91% drivable (radio read) system. It is the City's intentions in FY 2018-19, to complete Phase 1B, which would result in the City being a 100% drivable (radio read) system. It is the City's ultimate goal to have the water meters read on a full data network, which means the meter reads would automatically upload the usage to a centralized receiver on a scheduled interval. However, please note that this will require additional funding and will be discussed with Council at a later date.

The following table shows the progress of the City in converting all water meters to a Radio read route.

City of Oakdale: 8197 Water Meters					
Project ERT/Register Meter Manual Read Radio Read					
To date			1756	6441	
Phase 1A (FY 17-18)	103	883	770	7427	
Phase 1B (FY 18-19)	214	556	0	8197	

The 2017-2018 Water Meter Upgrade Project will purchase and upgrade water meters in Water Routes 2, 11, 12, 13, 14-Belserra (Phase 1A), and in routes 15 and 16 (Phase 1B). Refer to Attachment B & C - Water Route Maps to review Water Route project areas.

### II. DISCUSSION

This project is broken up into two phases. Phase 1A is to take place FY 2017-2018, while Phase 1B will take place after July 1, 2018, when additional funding is budgeted. Phase 2, which is not yet scheduled, will convert the water meter reads from Drive-By, to complete Data Network that is automatically uploaded to the City Financial software. Staff solicited bids from contractors with the ability to extend the contract for a period of three years, to accommodate additional available funds.

Bids were solicited on November 22, 2017. The Bids were received and opened on December 20, 2017, at 2:00 pm, at the Public Services Department. The Base Bid and Bid Alternate were totaled, and are as follows:

Contractor	Phase 1A	Phase 1B	Total
Lawrence Backhoe	\$122,125	\$90,570	\$212,695
MHK Construction	\$127,233	\$92,750	\$219,983
Rolfe Construction	\$162,242	\$108,044	\$270,286
Taylor Backhoe	\$190,151	\$164,204	\$354,355

Swierstock Enterprise Inc.	\$588,070	\$424,750	\$1,012,820

After review of the bids received, Staff has determined that Lawrence Backhoe Service, Inc. is the lowest bidder with a Total amount of \$212,695.00.

### III. FISCAL IMPACT

10% has been added for change orders which includes contingencies for unforeseen and/or additional work, totaling \$46,000.00, and \$335,466.14 has been added for the purchase of water meters and related materials.
